

Sure-Board®

U.S. Patent #5,768,841 ICBO ER-5762

Solutions for Shear

Sure-Board® is a substrate (*gypsum board, densglass, sheathing, etc.*) bonded to a steel sheet for installation where shear walls are required and/or to provide enhanced security.

Sure-Board® is Ideal for:

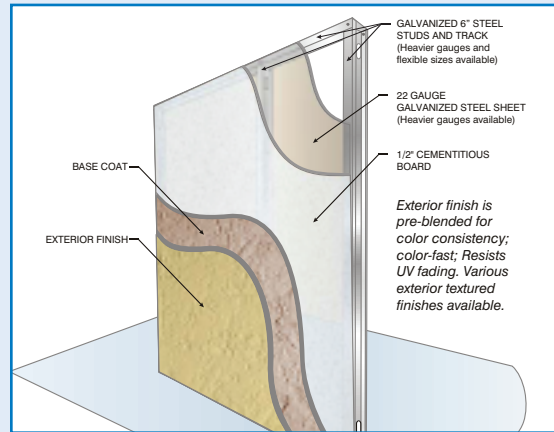

- Wind and Seismic Design
- High Traffic Areas
- Security and/or High Protection Walls
- Non-Combustible Construction (*Series 200*)
- Backing (*Attaching Displays, Cabinetry, etc.*)
- Renovating Existing Structures

Sure-Board® Benefits:

- High Shear Strength
- Lightweight, easy to install
- Various Metal and Substrate Configurations
- Various Sizes
- No Sagging
- Smooth Surface
- Cost Effective (*Materials and Labor*)
- Eliminates Cross Bracing
- Non-Combustible
- Impervious to Rot, Vermin, Termites & Corrosion
- High Impact Resistance
- Security Protection

Atlas-Wall Panels

(Patent Pending)

- Structural, Load-Bearing wall panels
- Miami-Dade Product Approved (*Including Large Missile Impact @ 80 ft/sec*)
- Florida State Product Approved (*Including for uses in "High Velocity Hurricane Zones"*)

Atlas-Wall Panel is ideal for:

- Low Rise Shell Construction
- High Rise Curtain Wall
- Retrofit Interior and Exterior Walls
- Building Expansion
- Affordable Housing
- Security Walls
- Safe Rooms
- Heavy Traffic Area Protection

Atlas-Wall Panel benefits:

- Rapid Construction
- Light Weight Walls
- Lighter Footings
- Non-Combustible
- Pre-Manufactured
- Structural and Load Bearing
- Flexible Sizes and Dimensions
- Impervious to Rot, Vermin, Termites & Corrosion
- High Impact Resistance
- Cost Effective
- Security Protection
- Low Maintenance
- Eliminate Cross Bracing

WELLBILT

Our products offer construction solutions including hurricane and earthquake protection.

Atlas-Wall Panels

Miami-Dade Product Approved and Florida State Product Approved for High Velocity Hurricane Zones.
