## **Wellbilt International is Awarded the Miami Lakes Congregational Church School Expansion Sure-Board Wall Panel technology can withstand high impact and winds**

Published: Friday, 1 Oct 2010 | 1:57 PM ET

**MIAMI, Oct 01, 2010 (BUSINESS WIRE)** – Alina Van Katwyk, President of Wellbilt International, is proud to announce the completion of the Miami Lakes Congregational Church preschool (The Growing Place) expansion. Due to demand, the Miami Lakes Congregational Church was interested in expanding its preschool capacity. Van Katwyk, a Miami Lakes resident, has always been passionate about the community and what it has to offer. “We have always wanted to enhance Miami Lakes. Having the opportunity to expand the church’s educational services is a dream,” stated Van Katwyk.

Wellbilt International was pleased to participate in the bid process. Management understood the relationship that Van Katwyk had with Miami Lakes, but in the end, it was evident that Wellbilt International’s Sure-Board Wall Panel, with its Miami-Dade High Velocity Hurricane Zone approval, was the answer they were looking for. Sure-Board Wall Panel’s benefit’s of Hurricane resistance, speed of construction, material/energy efficiency, and health benefits, made it a clear choice for the Board of Trustees to approve.

Wellbilt International [www.wellbiltinternational.com](http://www.wellbiltinternational.com) completed the four-classroom building, ready for the 2010 enrollment, and is currently in use.

“We are pleased to have received such positive comments ranging from the Miami Lakes building officials/inspectors, school’s management, school staff, and parents, which is a testament to our product,” commented Van Katwyk.
