Florida Certified Roofing Contractor -CCC#1327772

COMMERCIAL BUILDING EXTERIOR RETRO-FIT

Jobsite: Downtown Miami, Florida

Fully Permitted and Inspected by City of Miami and
Miami-Dade Building Dept.
2007

**This project is constructed with Wellbilt International's
Miami-Dade Approved 'Sure-Board Wall Panels',
complying with the
State of Florida's High Velocity Hurricane Zone of 146-mph
sustained wind-loads with an additional 20% increase for gusts!**

This Commercial Building had damage to its mirrored-glass curtain walls. After much research, the most cost effective alternative to repair this building was to use the 'Sure-Board Wall Panels' for its curtain walls.

'Sure-Board Wall Panels' are lightweight, may be easily supported by angle-irons fastened to existing slab, eliminating costly additional footings. Angle-irons may also be fastened to other floor levels for structural installation.

Bottom/Floor Level

Top Level

Sure-Board Wall Panel's 'Open Construction' enables fast installation to existing structure.

Exterior Curtain Walls installed in three weeks.

Seamless exterior textures.

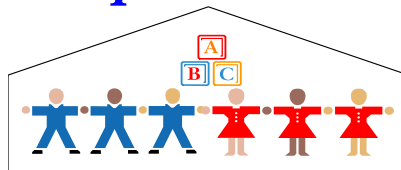

Traditional finishes, accents, painting, etc.

Ideal for FAST RETRO-FIT applications and other residential or commercial buildings in Hurricane or Earthquake prone areas.

Solutions for High Impact and High Wind Shear!
